- c. The main menu will display at least "user name," "menu list," and "signout."

Assessment Criteria	
Rated aspect	Point
Login validation	5
Login redirect to main menu	5
There is information userlogin, such as username and signout button or link in main menu	5
Summary	15

4. Question 4: Sub-CLO0712, Sub-CLO0714 Weight (20%)

Master Module, must have the following criteria:

- a. Before user can save, update and delete, must have a confirmation question.
- b. After success to save or update or delete, must show an information to the user.
- c. The module must be able to save data, update, delete data from or to a database
- d. There is search or filter data and print data feature in master module

Assessment Criteria	
Rated aspect	Point
Have confirmation question before perform save, update and delete	5
Show information after save, update and delete data	5
The module can save and update and show and delete data	5

FINAL EXAM ODD SEMESTER ACADEMIC YEAR 2025/2026
STUDY PROGRAM INFORMATIC
FACULTY OF ENGINEERING AND INFORMATICS
UNIVERSITAS MULTIMEDIA NUSANTARA

Assessment Criteria	
Rated aspect	Point
Have filter or search and print data feature in master module	5
Summary	20

5. Question 5: Sub-CLO0712, Sub-CLO0714 Weight (30%)

The Transaction or Report module must have the following criteria:

- In transaction module, the user can save multiple rows of data (transaction) with one click save
- In transaction module, the user can see the report of transaction
- There is search or filter data and print data feature in transaction module

Assessment Criteria	
Rated aspect	Point
Can save multiple data or transaction with one click	10
Show the report transaction	10
Have filter or search and print data feature in transaction or module	10
Summary	30
